DISCUSSION / ACTION ITEMS

Fiscal Impact: The fiscal impact of approving this policy is difficult to quantify due to the unknown timing, frequency, or number of employees that could be impacted by such an event.

Randy Howard provided a background on the amendment to the Personnel Policy and Procedures Manual, Policy 406.19, Time-Off During a State of Emergency. There have been a few instances where a state of emergency has been declared by the Governor because of a wild fire, which forced NCPA employees to evaluate their homes and not able to work their scheduled shifts. These displaced employees are forced to use their vacation or comp time to cover for the time lost. This policy was presented to the Utility Director group and was recommended for Commission approval. Staff is recommending the Commission approve up to five days of Administrative Paid Leave when a state of emergency has been declared for those employees impacted. The Committee discussed and agreed with staff’s recommendation.
General Counsel Jane Luckhardt took the Committee into Closed Session.

**ADJOURNMENT**
