RECOMMENDATION:

Approve Resolution 16-XX authorizing the General Manager or his designee to enter into a Multi-Task Professional Services Agreement with Schweitzer Engineering Laboratories, Inc. for protective relay and automation design services which shall not exceed $1,000,000 over five years for use at all facilities owned and/or operated by NCPA, its members, by the Southern California Public Power Authority (“SCPPA”), or by SCPPA members, with any non-substantial changes recommended and approved by the NCPA General Counsel.

BACKGROUND:

Protective relay and automation design services are needed at various NCPA locations as well as member facilities for the operation of the plants. Schweitzer Engineering Laboratories, Inc. is a provider of these services.

FISCAL IMPACT:

Total cost of the agreement is not-to-exceed $1,000,000 over five years to be used out of NCPA approved budgets as services are rendered. Purchase orders referencing the terms and conditions of the Agreement will be issued following NCPA procurement policies and procedures.

SELECTION PROCESS:

This enabling agreement does not commit NCPA to any expenditure of funds. At the time services are required, NCPA will bid the specific scope of work consistent with NCPA procurement policies and procedures. NCPA seeks bids from as many qualified providers as possible. Bids are awarded to the lowest cost provider. NCPA will issue purchase orders based on cost and availability of the services needed at the time the service is required.

ENVIRONMENTAL ANALYSIS:

This activity would not result in a direct or reasonably foreseeable indirect change in the physical environment and is therefore not a “project” for purposes of Section 21065 the California Environmental Quality Act. No environmental review is necessary.

COMMITTEE REVIEW:

The recommendation above was reviewed by the Facilities Committee (on March 30, 2016 and was recommended for Commission approval). For Facilities Committee meetings where a quorum was not present: No formal action was taken due to the lack of a quorum, however, the Project participants present at the meeting voiced their support for the recommendation below and no other meeting attendees had any objections.
The recommendation above was reviewed by the Lodi Energy Center Participant Committee (on April 11, 2016 and was approved).

Respectfully submitted,

RANDY S. HOWARD
General Manager
