RECOMMENDATION:

Approve Resolution 17-XX authorizing the General Manager or his designee to enter into a public works agreement with Brian Davis dba Northern Industrial Construction and delegate to the General Manager authority to issue purchase orders and change orders for not to exceed of \$731,944 for the Sulfur Platform project at the NCPA Geothermal Plant 2 Facility.

BACKGROUND:

The 2018 Budget included the Stretford Processing Project to re-build the tower, primarily due to the numerous issues (primarily rust) that were found in the existing tower and the excessive cost to repair it.

FISCAL IMPACT:

The cost for the base scope of work is \$679,645.60 as specified by the request for proposal. Contingency funds of \$52,298.40 are further requested to cover possible change orders and contingencies, so that the total cost to the project will not exceed \$731,944. Purchase orders referencing the terms and conditions of the agreement will be issued following NCPA procurement policies and procedures.

SELECTION PROCESS:

A formal Request for Proposal (RFP) for this public works project was issued "advertised" on April 27, 2017, Bid No. GEO338. The bid walk was held on May 16, 2017. Attendance at the bid was mandatory to pre-qualify contractors for subsequent bids to be considered responsive. The GEO facility solicited four qualified contractors (Brian Davis dba Northern Industrial Construction, Danick Mechanical, Hudson Mechanical and Bell Products), in which only one contractor was present and considered responsive. NCPA received one bid in response to the RFP as follows:

Brian Davis dba Northern Industrial Construction \$679,645.60

Staff has evaluated the bid and recommends that an agreement be entered into with Brian Davis dba Northern Industrial Construction to provide the required services in the amount of \$679,645.60.

The project cost will be covered by FY15 and FY18 Generation Services Budget, Geothermal account. A breakdown of the encumbered FY15 and future FY18 funds for this project are shown below. Cost allocation will be based on project participation percentages. Additional funds from other accounts will be required to complete this project. Below is a list of projects that have been identified to utilize monies from to ensure completion of this plant critical project.
