

GP Crane and Hoist Multi Task General Services Agreement

**Facilities Committee
November 2, 2016**

Background

- GP Crane performs Crane inspections, certifications and maintenance for overhead cranes and boom trucks
- We have had agreements in place with GP Crane in the past
- This is an Enabling agreement
- We would include American Crane and Sierra Crane in any bid requests for this type of work

General Scope of Work

- Five Year Multi Task General Services Agreement with GP Crane and Hoist Services in an amount not to exceed \$500,000
- GP would do the following work for the overhead Bridge Cranes as well as the Boom Truck:
 - Inspections
 - Certifications (annually)
 - Maintenance

Environmental Analysis

- This activity would not result in a direct or reasonably foreseeable indirect change in the physical environment and is therefore not a “project” for purposes of Section 21065 the California Environmental Quality Act. No environmental review is necessary.

Proposal

- Staff is seeking a recommendation from the Facilities Committee for Commission approval of the Five Year Multi Task General Services Agreement between NCPA and GP Crane and Hoist Services in an amount not to exceed \$500,000 for inspections, certifications and maintenance of cranes for use at all facilities owned and/or operated by NCPA, its Members, SCPPA, and SCPPA Members
