Agenda

Date: June 3, 2015

Subject: June 8, 2015 Lodi Energy Center Project Participant Committee Meeting

Location: 12745 N. Thornton Road, Lodi, CA or via teleconference

Time: 10:00 A.M.

*** In compliance with the Brown Act, you may participate in person at the meeting location or via teleconference at one of the locations listed below. <u>In either case</u>, please: (1) post this notice at a publicly accessible location at the <u>participation</u> location at least 72-hours before the meeting begins, and (2) have a speaker phone available for any member of the public who may wish to attend at your location.

NCPA NCPA **CITY OF AZUSA** 729 N. Azusa Avenue 12745 N. Thornton Road 651 Commerce Drive Roseville, CA Azusa, CA Lodi, CA **BAY AREA RAPID TRANSIT** CITY OF GRIDLEY CITY OF LOMPOC 300 Lakeside Drive, 16th Floor 685 Kentucky Street **100 Civic Center Plaza** Oakland, CA Gridley, CA Lompoc, CA **CITY OF BIGGS** PLUMAS-SIERRA RURAL CITY OF UKIAH 465 "C" Street ELECTRIC COOP 411 W Clay Street Ukiah. The Lodi Energy Center Project Participant Committee may take action on any of the items listed on this Agenda regardless of whether the matter appears on the Consent Calendar or is described as an action item, a report, or an information item. If this Agenda is supplemented by staff reports, they are available to the public upon written request. Pursuant to California Government Code Section 54957.5, the following is the location at which the public can view Agendas and other public writings: NCPA, 651 Commerce Drive, Roseville, CA or <u>www.ncpa.com</u> Persons requiring accommodations in accordance with the Americans with Disabilities Act in order to attend or participant in this meeting are requested to contact the NCPA Secretary at 916.781.3636 in advance of the meeting to arrange for such accommodations.

1. Call Meeting to Order and Roll Call

PUBLIC FORUM

Any member of the public who desires to address the Lodi Energy Center Project Participant Committee on any item considered by the Lodi Energy Center Project Participant Committee at this meeting, before or during the Committee's consideration of that item, shall so advise the Chair and shall thereupon be given an opportunity to do so. Any member of the public who desires to address the Lodi Energy Center Project Participant Committee on any item within the jurisdiction of the Lodi Energy Center Project Participant Committee and not listed on the Agenda may do so at this time.

2. Meeting Minutes - Approval of May 11, 2015 regular meeting

MONTHLY REPORTS

- 3. Operational Report for May 2015 (Jeremy Lawson)
- 4. Market Data Report for May 2015 Verbal Report (Bob Caracristi)
- 5. Monthly Asset Report (Michael DeBortoli)

CONSENT CALENDAR

All items on the Consent Calendar are considered routine and will be approved without discussion by a single roll call vote. Any Project Participant or member of the public may remove any item from the Consent Calendar. If an item is removed, it will be discussed separately following approval of the remainder of the Consent Calendar. Prior to the roll call vote to approve the Consent Calendar, the Participants will be polled to determine if any Participant wishes to abstain from one or more items on the Consent Calendar.

- 6. Treasurer's Report for May Accept by all Participants
- 7. Financial Report for May Approve by all Participants
- 8. GHG Reports (excerpted from monthly ARB) Accept by all Participants
- 9. LEC Project Management and Operations Agreement (PMOA) Schedule 1.00 Exhibit 2 VOM Staff seeking approval of revised Exhibit 2 to Schedule 1.00 for revised Variable Operation and Maintenance Cost (VOM) to reflect the values approved for the FY16 Budget (*Mike DeBortoli*)

Consent Items pulled for discussion:

BUSINESS ACTION ITEMS

10. Adjustment of Bidding Strategies to Account for Bid Cost Recovery – Staff seeking approval of adjusting the Minimum Load Costs of the LEC Plant (*Ken Goeke*)

11. PG&E's Gas One-Time Bill Credit Plan in Compliance with Decision 15-04-024 – Discussion of PG&E gas credit and whether it warrants adjustment of LEC bid curve during affected months *(Martin Caballero)*

INFORMATIONAL/ DISCUSSION ITEMS

12. Other New Business

ADJOURNMENT

Next Regular Meeting: July 13, 2015

Lodi Energy Center Project Participant Committee Meeting May 11, 2015 - MEETING MINUTES Location: Lodi Energy Center 12745 N. Thornton Rd, Lodi CA 95242 and by teleconference 10:00 A.M.

1. <u>Call Meeting to Order and Roll Call</u>

The PPC meeting was called to order at 10:03 a.m. by Chairman George Morrow. He asked that roll be called of the Project Participants as listed below.

PPC Meeting Attendance Summary							
Participant	Attendance	Particulars / GES					
Azusa - Morrow	Present	2.7857%					
BART - Lloyd	Present	6.6000%					
Biggs - Sorenson	Absent	0.2679%					
CDWR - Werner	Present	33.5000%					
Gridley - Borges	Absent	1.9643%					
Healdsburg - Crowley	Absent	1.6428%					
Lodi - Cadek	Present	9.5000%					
Lompoc - Hostler	Absent	2.0357%					
MID - Caballero	Present	10.7143%					
Plumas-Sierra - Brozo	Absent	0.7857%					
PWRPA - Palmerton	Present	2.6679%					
SVP - Hance	Present	25.7500%					
Ukiah - Grandi	Absent	1.7857%					
Summary							
Present	7	91.5179%					
Absent	6	8.4821%					
Quorum by #:	Yes						
Quorum by GES:	Yes						
Meeting Date:	5/11/2015						

Public Forum

Chairman Morrow asked if any members of the public were present in Lodi or at any of the other noticed meeting locations who would like to address the PPC on any agenda items. No members of the public were present.

2. <u>Meeting Minutes</u>

The draft minutes of the regular meeting held on April 13, 2015 were considered. The LEC PPC considered the following motion:

Date:	5/11/2015
Motion:	The PPC approves the minutes of the April 13, 2015 regular meeting as presented.
Moved by:	Lodi

moved by:	Loui
Seconded by:	MID

Discussion: There was no further discussion.

Vote Summary on Motion						
Participant	Vote	Particulars / GES

Total Noes	0	0.0000%				
Total Abstain	0	0.0000%				
Total Absent	6	8.4821%				
Result:	Motion passed.					

MONTHLY REPORTS

3. Operational Reports for April 2015

Jeremy Lawson presented a Revised Operational Report for April which was updated from that which was included in the compiled meeting materials. The revised report reflects the outage which occurred on April 14. There were no OSHA recordable accidents, no permit violations and no NERC/WECC violations. The outage which occurred on April 14 was due to failure of a check valve in the excitation cooling air ducting which resulted in material getting into the cooling fan which caused the motor and ducting to break free from the supporting foundation. Staff quickly responded; removed the damaged ducting, installed a temporary fix and returned the plant to service. The plant was out of service a little over three hours.

Jeremy's report reflected monthly production of 181,256 MWH, 705 service hours, and equivalent operating availability of 99.58%. The report set forth the Capacity Factor @ 280MW Pmax of 89.91% and @ 302MW Pmax of 83.36%. The plant ran continuously except for the outage periods. The 0.91% deviation in efficiency is expected to improve after the outage. The plant had 3 hot starts, 0 warm starts and 0 cold starts. Staff is anxious to see the results of operations after the outage.

Mike DeBortoli discussed the May planned outage which was originally scheduled from May 1 through 9. He said it was extended through May 12 because of the time needed for shipping and repair of the fuel valves. The valves were sent out to the vendor on day one however there was significant damage requiring machining to be done. The valves are being tested today and are expected to arrive for installation tomorrow to wrap up the outage. Mike presented ten great pictures of various aspects of the outage and work being done.

4. Market Data Report for April 2015

Bob Caracristi discussed the operating and financial settlement results for the month. He noted again this month the issue occurred as in January, February, and March regarding the incorrect CAISO RA availability standard. NCPA will again submit a request for correction. He said the March correction was reversed and it will be reflected on the June ARB available May 25. He said the CAISO data entry is done manually and that it appears after mid April the numbers seem to be correct. Included in the discussion was an additional metric to address the concept of mileage accuracy.

5. <u>Monthly Asset Report</u>

Mike DeBortoli presented the monthly asset report/budget review for March. He noted revenue is down due to production of less MW hours than projected. The fuel costs are down about 20% and administrative costs as well due to timing of the monthly lease payments. Fixed costs are lower than forecast due to resources being dedicated elsewhere. Project costs are down to date as many projects are presently being prepared to go to bid. He said overall costs are tracking well. Mike noted a comparison of MW production compared to 2014 and the resultant average MWh costs; dropping from an average of \$53 in 2014 to \$33 in 2015 primarily because gas prices dropped from \$584 to \$322.

Consent Calendar

The consent calendar was considered. Chairman Morrow asked if any Participant wished to remove any item listed on the Consent Calendar for separate discussion. He then asked if any Participant wished to abstain from one or more items on the Consent Calendar. There were no abstentions. The LEC PPC considered the following motion:

Date: 5/11/2015

Motion: The PPC approves the Consent Calendar consisting of: agenda items no. 6 Treasurer's Report for April 2015; 7. Financial Reports for April 2015; 8. GHG Reports for May 2015; 9. Five year Multi-Task General Services Agreement with Ernie & Sons Scaffolding dba Unique Scaffold; 10. Five year Multi-Task General Services Agreement with First Global Gear Services, LLC dba FGGS, LLC; 11. First Amendment to the existing five year Multi-Task General Services Agreement with Performance Mechanical, Inc.; 12. Second Amendment to the existing three year General Services Agreement with Expro Americas, LLC; 13. First Amendment to the existing five year Multi-Task General Services Agreement with Peterson Industrial Scaffolding, Inc. Accepting Assignment to Platinum Scaffolding, Inc.; and 14. First Amendment to the existing five year Multi-Task Equipment, Materials and Supplies Agreement with Univar USA, Inc.

INFORMATIONAL ITEMS

15. <u>Proclamation for Michael Werner for Service as LEC PPC Chairman</u>

Mike Werner served as the Chairman of the LEC Project Participant Committee from September 9, 2011 to March 9, 2015. Mike's leadership guided the LEC Project Participant Committee through the final phase of construction of the Lodi Energy Center, the first Siemens Flex-Plant with "fast start" technology in the nation. He was at the helm when the LEC achieved Commercial Operation on November 27, 2012, was named the winner of the Gas-Fired Top Plant Award for 2012, and during the plant's first two-plus years in operation. Mike's personal and professional commitment to the Project, its Participants, and plant staff, together with his experience and knowledge of the industry, are widely recognized and appreciated by all. The PPC and its Participant organizations heartily thanked Michael Werner for his service by presenting him with a formal Proclamation in recognition for his service.

16. Other New Business

None

Adjournment

The next regular meeting of the PPC is scheduled for Monday, June 8, 2015. The meeting was adjourned at 11:34 a.m.

AGENDA ITEM NO.: 6

LEC Treasurer's Report

Date: June 3, 2015

To: LEC Project Participant Committee

Subject: Treasurer's Report for the Month Ended May 31, 2015

In compliance with NCPA policy and State of California Government Code Sections 53601 and 53646(b), the following monthly report is submitted for your information and acceptance.

Cash - At month end cash totaled \$0.

<u>Investments</u> - The carrying value of the LEC's investment portfolio totaled \$43,498,533 at month end. The current market value of the portfolio totaled \$43,513,613.

The overall portfolio had a combined weighted average interest rate of 0.329% with a bond equivalent yield (yield to maturity) of 0.345%. Investments with a maturity greater than one year totaled \$13,159,000. During the month \$21 million was invested.

Funds not required to meet annual cash flow are reinvested and separately reported as they occur.

<u>Interest Rates</u> - During the month, rates on 90 day T-Bills stayed the same with basis point (at 0.01%) and rates on one year T-Bills increased 1 basis point (from 0.25% to 0.26%).

To the best of my knowledge and belief, all securities held by LEC as of May 31, 2015 are in compliance with the Agency's investment policy. There are adequate cash flow and investment maturities to meet next month's cash requirements.

Environmental Analysis

The Treasurer's report will not result in a direct or reasonably foreseeable indirect change in the physical environment and is therefore not a "project" for purposes of Section 21065 of the California Environmental Quality Act. No environmental review is necessary.

Respectfully submitted,

DONNA STEVENER Assistant General Manager/CFO Administrative Services/Finance

	ivet Annual COSt Per NIWN	\$	26.90	φ	17.15			

Footnotes:

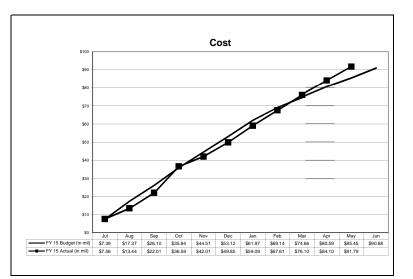

A - Higher variable maintenance and chemical costs due to higher year to date generation.

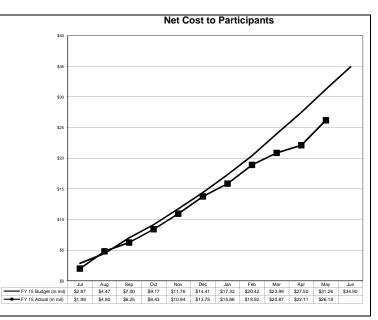

B - Higher costs due to repairs to boilers, turbines and higher water treatment costs.

C - Higher than budgeted fuel costs due to higher year to date generation offset by lower costs per mmBtu.

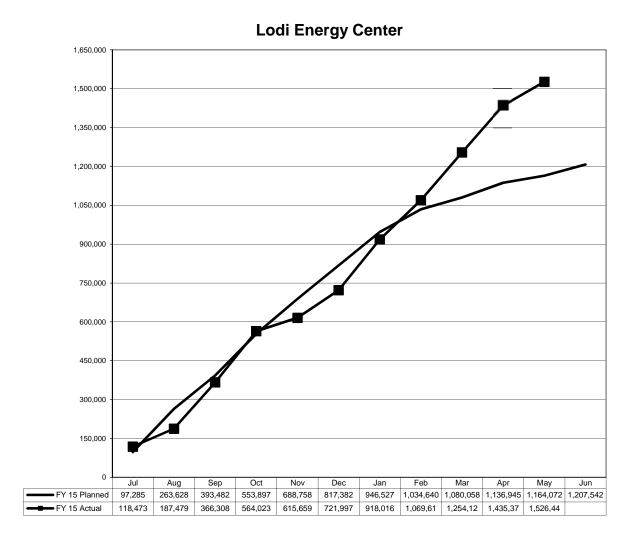

D - Costs are higher than expected due to higher year to date generation.

E - Non-budgeted costs due to load balancing requirements at CA ISO.

Annual Budget LEC Generation Analysis Planned vs. Actual FY 2015

Lodi Energy Center Project Participant Committee

Staff Report

AGENDA ITEM NO.: 9

Date:	June 3, 2015
То:	Lodi Energy Center Project Participant Committee
Subject:	Approval of Updated Lodi Energy Center (LEC) Project Management and Operations Agreement (PMOA) Schedule 1.00, Exhibit 2

<u>Background</u>

NCPA and the LEC Project Participants executed the Lodi Energy Center Project Management and Operations Agreement (PMOA), which became effective on August 1, 2010. The PMOA contains multiple Schedules, which provide procedures and protocols, and guidelines regarding Project operations. Pursuant to the PMOA, Schedules can be revised, deleted or added from time to time based on then existing operating or market conditions, and subject to the approval of the Project Participant Committee (PPC), and with regard to certain Schedules, approval additionally by the NCPA Commission when such Schedules "…could be reasonably viewed as having an impact on other NCPA projects." (PMOA, Article 10).

As has been done in prior years, staff is recommending changes to PMOA Agreement Schedule 1.00, Exhibit 2 "VOM" which provides the calculations for Variable Operation and Maintenance costs ("VOM"). Exhibit 2 of Agreement Schedule 1.00 has been updated to reflect the Project's revised Variable Operation and Maintenance (VOM) cost of \$3.23/MWh to be consistent with the FY16 budget approved on April 13, 2015. This revised VOM is the result of updated budgeted operations and maintenance cost components and forecasted annual Project energy production. A completed "marked" version of the proposed PMOA Schedule 1.00, Exhibit 2 is attached to this staff report reflecting the specific changes staff is recommending.

Fiscal Impact

No significant costs will be incurred to implement the changes to the PMOA Schedules and funds are available in the NCPA budget to support the work associated with these contract updates.

Environmental Analysis

This activity would not result in a direct or reasonably foreseeable indirect change in the physical environment and is therefore not a "project" for purposes of Section 21065 the California Environmental Quality Act. No environmental review is necessary.

Recommendation

NCPA staff recommends that the PPC pass a motion approving implementation of the revised PMOA Agreement Schedule 1.00, Exhibit 2, effective July 1, 2015 to account for the changes outlined in this staff report.

VOM

The Variable Operation and Maintenance cost (VOM) shall be determined using the applicable budgeted variable cost line items, as listed in the table below, and the annual forecasted Project Energy in the then current Project Annual Budget or Mandatory Budget Amendment. The VOM shall be reviewed and revised annually in coordination with NCPA's Project Annual Budget cycle, or as otherwise determined by the PPC and NCPA.

VOM (\$/MWH) = (Operation (\$) + Siemens LTSA (\$) + Maintenance Reserve (\$)) / forecasted annual Project Energy (MWH)

Advice 3597-G

(Pacific Gas and Electric Company ID U 39 G)

Public Utilities Commission of the State of California

Subject: Gas One-Time Bill Credit Plan in Compliance with Decision 15-04-024

Pacific Gas and Electric Company (PG&E) hereby submits its Gas One-Time Bill Credit Plan (Bill Credit Plan) pursuant to Decision (D.)15-04-024. The Bill Credit Plan is described in Attachment 1 to this filing, including an illustration of the credits by class using billed usage from November and December 2014.

<u>Purpose</u>

This filing complies with Ordering Paragraphs (OPs) 4 and 5 of D.15-04-024, issued April 9, 2015. In accordance with D.15-04-024, PG&E submits the Bill Credit Plan described herein to return to PG&E's gas end-use customers their proportional share of the \$400 million bill credit as determined by the equal cents per therm method ordered by the California Public Utilities Commission (CPUC or Commission).

<u>Background</u>

On April 9, 2015, the Commission approved final decisions in the three investigations pending against PG&E relating to (1) PG&E's safety recordkeeping for its natural gas transmission system, (2) PG&E's operation of its natural gas transmission pipeline system in or near locations of higher population density, and (3) PG&E's pipeline installation, integrity management, recordkeeping and other operational practices, and other events or courses of conduct, that could have led to or contributed to the natural gas explosion that occurred in the City of San Bruno, California on September 9, 2010.

The CPUC also approved a fourth decision (D.15-04-024), which, among other things, requires that PG&E provide a one-time \$400 million bill credit to its end-use natural gas customers.

Bill Credit Plan

Attachment 1 describes the process PG&E will use to implement the \$400 million bill credit. In accordance with D.15-04-024, PG&E requests a one-month extension such that customers will receive the bill credit as a credit item on their March 2016 bills.¹ Providing the bill credit in the February billing cycle would not provide sufficient time to perform the necessary system queries, analysis of results, computation processes and system testing. Since the bill credit for many noncore customers is expected to be greater than their monthly bill, noncore customers will receive the bill credit in the form of a check in order to provide them the benefit of the bill credit in the month of March.

The credit will be based on each customer's billed consumption in the November and December 2015 billing cycles using a uniform cents per therm amount regardless of end-use class or service level. Core customers are not billed on a uniform calendar basis but instead bills are issued across all non-holiday weekdays of each month. Depending on each core customer's billing serial, the usage incorporated into the credit rate and customer bill credit calculations will be a two-month period ranging from early October to late December as the core bills issued in November and December variously cover those periods.

PG&E bills for noncore gas customers are issued on the first business day of the month for usage during the previous calendar month. Therefore, in compliance with the CPUC decision stating that PG&E will use November and December billing cycles, for noncore customers this will actually mean using October and November 2015 calendar month usage when calculating the bill credit rate and the actual credit amounts for these noncore customers. The amount of the bill credit will not be recovered through any regulatory mechanism. Bills for PG&E's interdepartmental gas usage will not be eligible for this bill credit nor included in the calculation of the per therm credit rate.

Should the Commission issue disposition with a different methodology for computation of the bill credit, PG&E will act as quickly as possible to issue the bill credit to customers.

Table 1 to Attachment 1 provides illustrative bill credit amounts by customer class based on November and December 2014 billing data.

<u>Protests</u>

Anyone wishing to protest this filing may do so by letter sent via U.S. mail, facsimile or E-mail, no later than June 10, 2015, which is 20 days after the date of this filing. Protests must be submitted to:

¹ Decision, page 88, and Ordering Paragraph 4.b.

CPUC Energy Division ED Tariff Unit 505 Van Ness Avenue, 4th Floor San Francisco, California 94102

Facsimile: (415) 703-2200 E-mail: EDTariffUnit@cpuc.ca.gov

Copies of protests also should be mailed to the attention of the Director, Energy Division, Room 4004, at the address shown above.

The protest shall also be sent to PG&E either via E-mail or U.S. mail (and by facsimile, if possible) at the address shown below on the same date it is mailed or delivered to the Commission:

Meredith Allen Senior Director, Regulatory Relations Pacific Gas and Electric Company 77 Beale Street, Mail Code B10C P.O. Box 770000 San Francisco, California 94177

Facsimile: (415) 973-7226 E-mail: PGETariffs@pge.com

Any person (including individuals, groups, or organizations) may protest or respond to an advice letter (General Order 96-B, Section 7.4). The protest shall contain the following information: specification of the advice letter protested; grounds for the protest; supporting factual information or legal argument; name, telephone number, postal address, and (where appropriate) e-mail address of the protestant; and statement that the protest was sent to the utility no later than the day on which the protest was submitted to the reviewing Industry Division (General Order 96-B, Section 3.11).

Approval and Effective Date

In compliance with D.15-04-024, PG&E requests that this Tier 2 advice letter be approved and become effective on or before September 1, 2015 to ensure ample time to conduct the analysis of customer usage data, modify and test its billing system, and issue the credits to eligible customers during the March 2016 billing cycle. In the event the Commission approves this bill credit advice letter after September 1, 2015, the Bill Credit Plan will be implemented as soon as possible following Commission approval.

<u>Notice</u>

In accordance with General Order 96-B, Section IV, a copy of this advice letter is being sent electronically and via U.S. mail to parties shown on the attached list and the parties on the service lists for A.13-12-012, I.12-01-007, I.11-02-016, I.11-11-009, A.12-11-009 (and I.13-03-007), and R.11-02-019. Address changes to the General Order 96-B service list should be directed to PG&E at email address PGETariffs@pge.com. For changes to any other service list, please contact the Commission's Process Office at (415) 703-2021 or at Process_Office@cpuc.ca.gov. Send all electronic approvals to PGETariffs@pge.com. Advice letter filings can also be accessed electronically at: http://www.pge.com/tariffs/.

Attachment 1

PACIFIC GAS AND ELECTRIC COMPANY GAS ONE-TIME BILL CREDIT PLAN

1. PURPOSE

This Gas One-Time Bill Credit Plan (Bill Credit Plan) complies with Ordering Paragraphs (OPs) 4 and 5 of D.15-04-024, issued April 9, 2015, which requires PG&E to credit PG&E's gas end-use customers their proportional share of the \$400 million bill credit on their February 2016 bills. In accordance with D.15-04-024, PG&E requests a one-month extension such that customers will receive the bill credit as a credit item on their March 2016 bills.¹ Providing the bill credit in the February billing cycle would not provide sufficient time to perform the necessary system queries, analysis of results, computation processes and system testing. Since the bill credit for many noncore customers is expected to be greater than their monthly bill, noncore customers will receive the bill credit in the form of a check in order to provide them the benefit of the bill credit in the month of March.

2. INITIAL BILL CREDIT DATE

Credits will be made to eligible gas customers on their March 2016 bills, as described in Section 4 below, based on each customer's billed consumption in their November and December 2015 billing cycles using a uniform cents per therm amount. The reduction in revenue is not to be recovered through any regulatory mechanism. PG&E needs six months to program and test the necessary modifications to its billing system to implement this credit. Accordingly, in the event the Commission does not approve the Bill Credit Plan by September 1, 2015, the Bill Credit Plan will be implemented as soon as possible following Commission approval.

3. TOTAL AMOUNT TO BE CREDITED

The total amount to be credited to PG&E eligible end-use customers is \$400 million. A contingency amount equal to one (1) percent of the total credit amount will be temporarily retained by PG&E to address disputes customers may make on their eligibility for the bill credit or of the credit amount. Table 1 provides illustrative bill credit amounts by customer class based on November and December 2014 billing data.

¹ Decision, page 88 and Ordering Paragraph 4.b.

4. <u>CUSTOMER ELIGIBILITY</u>

An eligible customer is a PG&E natural gas end-use customer who has usage billed in November and/or December 2015 billing cycles or a long bill beyond December 31, 2015 that would normally include these billing cycle periods, and who has an open account during the March 2016 billing cycle.

5. <u>METHODOLOGY FOR DISTRIBUTION OF CREDITS TO ELIGIBLE</u> <u>CUSTOMERS</u>

Credits will be made to PG&E's eligible end-use gas customers based on the method described below:

a) An illustrative credit rate is provided in Table 1.The credit rate is equal to the Bill Credit Plan amount (less the 1 percent contingency) divided by the total therms billed for PG&E's natural gas customer usage for the November and December 2015 billing cycles.

Core customers are not billed on a uniform calendar basis but instead bills are issued across all non-holiday weekdays of each month. Depending on each core customer's billing serial, the usage incorporated into the credit rate and customer bill credit calculations will be a two-month period ranging from early October to late December as the core bills issued in November and December variously cover those periods.

PG&E bills for noncore gas customers are issued on the first business day of the month for usage during the previous calendar month. Therefore, in compliance with the CPUC decision stating that PG&E will use November and December billing cycles, for noncore customers this will actually mean using October and November 2015 calendar month usage when calculating the bill credit rate and the actual credit amounts for these noncore customers.

- b) PG&E will remit the credit amount due to each eligible core customer through a one-time bill credit appearing on their March 2016 bills. Since the bill credit for many noncore customers is expected to be greater than their monthly bill, noncore customers will receive the bill credit in the form of a check in order to provide them the benefit of the bill credit in the month of March.
- c) The bill credit will not be recorded as a reduction in revenue. Therefore, there will be no effect in utility user taxes or franchise fee payments to cities and counties.

d) Bills for PG&E's interdepartmental gas usage will not be eligible for this bill credit nor included in the calculation of the per therm credit rate.

6. ADJUSTMENTS OF BILL CREDITS UPON CUSTOMER INQUIRY

If any former or present customer contends, within six months after the initial implementation date of the Bill Credit Plan, that the amount received by the customer is incorrect, PG&E will investigate and make an appropriate adjustment.

7. UNCASHED CHECKS

Any uncashed checks resulting from the Bill Credit Plan will remain a liability of PG&E to the individual customer for one year after the date of the check issuance. The claim of any person legally entitled to one of the uncashed checks (whether or not the check is returned to PG&E) will be honored. Where a check has been returned, PG&E will make every reasonable effort to locate the payee.

8. <u>REPORT ON BILL CREDIT PLAN</u>

A preliminary report of the total amount of credits made to PG&E customers pursuant to the Bill Credit Plan will be reported to the Commission 45 days after the \$400 million bill credit has been distributed describing its calculation of the bill credit on a customer class basis, the number of customers it was distributed to on a customer class basis, and the total amount of bill credits distributed. This report cannot be considered a final report due to potential customer adjustments and corrections made pursuant to Section 6 of the Bill Credit Plan. A final report of the total amount of credits made to PG&E customers will be reported seven months after the \$400 million bill credit has been distributed to allow for adjustments of bill credits upon customer inquiry as described in Section 6. If the total amount of bill credits distributed is less or more than \$400 million, PG&E will, at the time it submits its final report to the Commission, submit a Tier 2 advice letter proposing a method of truing up the \$400 million using existing balancing accounts.

9. CUSTOMER NOTIFICATION

A bill credit will be shown as a line item on eligible customers' bills. There will be a separate statement/instruction to master-metered customers at mobile home parks and other residential complexes of their obligation to pass the bill credit on to their submetered customers in the manner required by Public Utilities Code Section 739.5(b). A sample of the statement/instruction in the form of a Master-Metered Customer Letter is attached as Exhibit 1 to this plan.

SAMPLE MASTER-METERED CUSTOMER LETTER

March x, 2016

«CUSTOMER_NAME» «MAILING_ADDRESS» «MAILING_ADDRESS2» «MAILING_CITY», «MAILING_STATE» «MAILING_POSTAL»

Dear Valued Customer,

In March 2016, PG&E gas customers will receive a credit on their bills. This credit is being given in compliance with the California Public Utilities Commission (CPUC's) decision on investigations related to PG&E's gas transmission pipelines (specifically, CPUC Decision 15-04-024). The one-time credit is based on billed consumption in November and December 2015 billing cycles using a uniform cents per therm rate. In total, PG&E's gas customers will receive a credit of \$400 million.

California Public Utilities Code Section 739 directs master-metered customers to pass on credits received on the master-metered bill to their sub-metered tenants.

"Every master-meter customer of a gas or electrical corporation subject to subdivision (a) who, on or after January 1, 1978, receives any rebate from the corporation shall distribute to, or credit to the account of, each current user served by the master-meter customer..."

As a master-metered customer, you are required by state law to pass along any credit or rate reduction that you may receive to your tenants. The credit is the same for both CARE and non-CARE customers and should be passed on to each dwelling unit. The uniform per therm rate based on billed consumption in November and December 2015 billing cycles is \$0.xx. For example, if a dwelling were billed for 6 therms in November and 8 therms in December, totaling 14 therms for that period, then the credit would be \$x.xx (14 therms multiplied by per therm rate of \$0.xx)

Please take a moment to check the number of dwelling units PG&E has on record for your facility. This information can be found on the bill you receive for your master meter. Should the number of units need updating, please call the number below.

PG&E is committed to providing exceptional customer service. If you have questions or need further assistance, please call our **Business Customer Contact Center** at **1 (800) 468-4743.**

Please post this notice in a conspicuous place. Thank you.
