Review Group – Issue 7

Issue 7 focuses on the allocation of revenue from marketing Power Management services to third parties. In response to questions from the Facilities Committee, the Review Group has prepared an estimate on how PM revenues would be allocated if a portion is allocated through A&G. Since this concept primarily addresses comments from Members that do not take PM services, the estimate focuses on how dollars ultimately flow to and through L&R, as shown in the path of blue arrows. Please see the accompanying spreadsheet.
