Staff Report

AGENDA ITEM NO.: 10

Date: November 2, 2017

Meeting Date: November 13, 2017

To: Lodi Energy Center Project Participant Committee

Subject: Sabah International Incorporated – Five Year Multi-Task General Services Agreement; Applicable to the following projects: All NCPA locations and Members, SCPPA, and SCPPA Members

Proposal

Approve the Multi Task General Services Agreement with Sabah International Incorporated for fire system maintenance services, with any non-substantial changes recommended and approved by the NCPA General Counsel, which shall not exceed \$500,000 over 5 years for use at all facilities owned and/or operated by NCPA, its Members, by the Southern California Public Power Authority (“SCPAA”), or by SCPAA Members.

Background

Fire system maintenance services are required from time to time related to project support at facilities owned and/or operated by NCPA, its Members, by the Southern California Public Power Authority (“SCPAA”), or by SCPAA Members.

Selection Process

For services specific to the NCPA Combustion Turbine facilities, this vendor was selected as a result of Informal Bidding done in accordance with NCPA’s procurement policies and procedures. The Request for Proposal (RFP) was sent to three potential bidders on 9/8/2017. NCPA received two bids (one bidder was non responsive). Both proposals were evaluated based on service offerings, competitive pricing, fire system testing/reports and expertise to maintain our fire systems installed throughout NCPA Combustion Turbine facilities. This vendor is recommended to provide this service because it provided the lowest evaluated costs to the Agency.

The remainder of the agreement is enabling for additional services as needed and does not commit NCPA to any expenditure of funds. At the time services are required, NCPA will bid the specific scope of work consistent with NCPA procurement policies and procedures. NCPA currently has one other agreement in place with Tri-Signal Integration, Inc. for similar services. NCPA seeks bids from multiple qualified providers whenever services are needed. Bids are awarded to the lowest cost provider. NCPA will issue purchase orders based on cost and availability of the services needed at the time the service is required.

Fiscal Impact

Upon execution, the total cost of the agreement is not-to-exceed \$500,000 over five years to be used out of NCPA approved budgets as services are rendered. Purchase orders referencing the terms and conditions of the Agreement will be issued following NCPA procurement policies and procedures.

Environmental Analysis

This activity would not result in a direct or reasonably foreseeable indirect change in the physical environment and is therefore not a "project" for purposes of Section 21065 the California Environmental Quality Act. No environmental review is necessary.

This dollar amount is not a guarantee that Agency will pay that full amount to the Contractor, but is merely a limit of potential Agency expenditures under this Agreement.

2.1 Invoices. Contractor shall submit invoices, not more often than once a month during the term of this Agreement, based on the cost for services performed and reimbursable costs incurred prior to the invoice date. Invoices shall contain the following information:

In the event Contractor fails to submit an invoice to Agency for any amounts due within the ninety (90) day period, Contractor is deemed to have waived its right to collect its final payment for the Requested Work from Agency.

Section 3. FACILITIES AND EQUIPMENT. Except as set forth herein, Contractor shall, at its sole cost and expense, provide all facilities and equipment that may be necessary to perform the Work.

Section 4. INSURANCE REQUIREMENTS. Before beginning any Work under this Agreement, Contractor, at its own cost and expense, shall procure the types and amounts of insurance listed below and shall maintain the types and amounts of insurance listed below for the period covered by this Agreement.

- 4.3 Professional Liability Insurance.** Not Applicable.

The Workers' Compensation policy shall be endorsed with a waiver of subrogation in favor of Agency for all work performed by Contractor, its employees, agents and subcontractors.
- 4.7 Contractor's Obligation.** Contractor shall be solely responsible for ensuring that all equipment, vehicles and other items utilized in the performance of Work are operated, provided or otherwise utilized in a manner that ensures they are and remain covered by the policies referenced in Section 4 during this

Agreement. Contractor shall also ensure that all workers involved in the provision of Work are properly classified as employees, agents or independent contractors and are and remain covered by any and all workers' compensation insurance required by applicable law during this Agreement.

Section 5. INDEMNIFICATION AND CONTRACTOR'S RESPONSIBILITIES.

- 5.1 Effect of Insurance.** Agency's acceptance of insurance certificates and endorsements required under this Agreement does not relieve Contractor from liability under this indemnification and hold harmless clause. This indemnification and hold harmless clause shall apply to any damages or claims for damages whether or not such insurance policies shall have been determined to apply. By execution of this Agreement, Contractor acknowledges and agrees to the provisions of this section and that it is a material element of consideration.
- 5.2 Scope.** Contractor shall indemnify, defend with counsel reasonably acceptable to the Agency, and hold harmless the Agency, and its officials, commissioners, officers, employees, agents and volunteers from and against all losses, liabilities, claims, demands, suits, actions, damages, expenses, penalties, fines, costs (including without limitation costs and fees of litigation), judgments and causes of action of every nature arising out of or in connection with any acts or omissions by Contractor, its officers, officials, agents, and employees, except as caused by the sole or gross negligence of Agency. Section 6. STATUS OF CONTRACTOR.

- 6.1 Independent Contractor.** Contractor is an independent contractor and not an employee of Agency. Agency shall have the right to control Contractor only insofar as the results of Contractor's Work and assignment of personnel pursuant to Section 1; otherwise, Agency shall not have the right to control the means by which Contractor accomplishes Work rendered pursuant to this Agreement. Notwithstanding any other Agency, state, or federal policy, rule, regulation, law, or ordinance to the contrary, Contractor and any of its employees, agents, and subcontractors providing services under this Agreement shall not qualify for or become entitled to, and hereby agree to waive any and all claims to, any compensation, benefit, or any incident of employment by Agency, including but not limited to eligibility to enroll in the California Public Employees Retirement System (PERS) as an employee of Agency and entitlement to any contribution to be paid by Agency for employer contributions and/or employee contributions for PERS benefits.

Contractor shall indemnify, defend, and hold harmless Agency for the payment of any employee and/or employer contributions for PERS benefits on behalf of

Contractor or its employees, agents, or subcontractors, as well as for the payment of any penalties and interest on such contributions, which would otherwise be the responsibility of Agency. Contractor and Agency acknowledge and agree that compensation paid by Agency to Contractor under this Agreement is based upon Contractor's estimated costs of providing the Work, including salaries and benefits of employees, agents and subcontractors of Contractor.

Contractor shall indemnify, defend, and hold harmless Agency from any lawsuit, administrative action, or other claim for penalties, losses, costs, damages, expense and liability of every kind, nature and description that arise out of, pertain to, or relate to such claims, whether directly or indirectly, due to Contractor's failure to secure workers' compensation insurance for its employees, agents, or subcontractors.

Contractor agrees that it is responsible for the provision of group healthcare benefits to its fulltime employees under 26 U.S.C. § 4980H of the Affordable Care Act. To the extent permitted by law, Contractor shall indemnify, defend and hold harmless Agency from any penalty issued to Agency under the Affordable Care Act resulting from the performance of the Services by any employee, agent, or subcontractor of Contractor.

- 6.2 Contractor Not Agent.** Except as Agency may specify in writing, Contractor shall have no authority, express or implied, to act on behalf of Agency in any capacity whatsoever as an agent. Contractor shall have no authority, express or implied, pursuant to this Agreement to bind Agency to any obligation whatsoever.
- 6.3 Assignment and Subcontracting.** This Agreement contemplates personal performance by Contractor and is based upon a determination of Contractor's unique professional competence, experience, and specialized professional knowledge. A substantial inducement to Agency for entering into this Agreement was and is the personal reputation and competence of Contractor. Contractor may not assign this Agreement or any interest therein without the prior written approval of the Agency. Contractor shall not subcontract any portion of the performance contemplated and provided for herein, other than to the subcontractors identified in Exhibit A, without prior written approval of the Agency. Where written approval is granted by the Agency, Contractor shall supervise all work subcontracted by Contractor in performing the Work and shall be responsible for all work performed by a subcontractor as if Contractor itself had performed such work. The subcontracting of any work to subcontractors shall not relieve Contractor from any of its obligations under this Agreement with respect to the Work and Contractor is obligated to ensure that any and all subcontractors performing any Work shall be fully insured in all respects and to the same extent as set forth under Section 4, to Agency's satisfaction.
- 6.4 Certification as to California Energy Commission.** If requested by the Agency, Contractor shall, at the same time it executes this Agreement, execute Exhibit C.

- 6.5 **Certification as to California Energy Commission Regarding Hazardous Materials Transport Vendors.** If requested by the Agency, Contractor shall, at the same time it executes this Agreement, execute Exhibit D.

The Annual inspections are to be conducted yearly during the spring outage.

During the Foam System testing Sabah will provide a holding tank to capture and test the foam solution.

Inspection of Fire water tanks will be for compliance with the following codes and standards:

AWWA; EPA; NFPA 22; NFPA 25; OSHA

STEP 1: Perform Interior Inspection

Please note, our ROV unit requires, at minimum, a 12" diameter manway/opening.

The interior in-service inspection will be performed using our ROV Inspection Robot and the exterior will be inspected by our personnel trained in OSHA regulations utilizing fall protection equipment. Tank is to remain full during internal inspection.

This inspection will check for deficiencies and meet tank inspection requirements of OSHA, EPA, AWWA and NFPA. All structural, sanitary, safety, security and coating conditions will be reviewed. Items examined will include ladders, shell, roof, vent, manways, welds, seams, foundation, anchors, safety systems, hatch, and external overflow. Any emergency items will be brought to Owner's attention by our Inspector personnel.

Owner will receive a detailed written report of findings with photographs, DVD of inspection, corrective recommendations and cost estimates.

The following tests shall be performed during the inspection: Lead check – Interior & Exterior, Mil thickness test (coating thickness) – Exterior only, Cross hatch test (paint adhesion) – Exterior only, Ultra-sonic test of tank shell – Exterior only

STEP 2: Perform Interior Clean Out

An interior in-service cleanout of sediment from the tank floor is not to exceed three (3) inches. Additional accumulation will be priced at \$300/hour after 3". The interior cleanout will be performed using our Remotely Controlled Submersible Vehicle. The tank is to remain full during the internal cleanout.

Our price is based on dimensions acquired from the Customer, who understands that if the size of the tank is larger than implied, our price will be adjusted accordingly.

Debris and sediment will be placed on the ground or in a customer designated drainage area within 50' of the tank base. The customer is to provide an area for disposal of all debris, sediment and water generated from the robotic cleanout.

The majority of sediment will be removed from the tank with the robotic equipment; however the customer understands that 100% removal of sediment and debris cannot be attained without draining the tank.

Please note that our ROV cleanout robot requires at least a 24" (round or square) opening.

If the interior access ladder impedes the manway and restricts access to the tank interior with our ROV cleanout robot, the Owner agrees that the top few rungs may be removed to gain access to the tank as long as the structural integrity of the interior access ladder will not be compromised.

Friday, September 22, 2017

If any other tank accessories impede the opening, the Owner agrees that necessary modifications may be made, which will be in accordance with AWWA, to gain access to the tank.

In the event it becomes necessary to drain the tank once we are on site, draining shall be performed by the Owner.

If the Owner does not allow us to make the necessary modifications to the tank and the ROV cleanout robot cannot access the tank, a mobilization fee will be charged.

Please Note, Owner is responsible for the water discharge process. PTM will provide piping of up to 100' to direct discharge from the tank. Owner's representative will direct where the water is discharged to.
